EDUCATION

- MADURAI KAMARAJ UNIVERSITY, MADURAI
 - Bachelor of Computer Applications (Correspondence) 2023 - 2027
- SEIKALATHUR KAMATCHI AMMAN POLYTECHNIC
 - Diploma in Mechanical Engineering 2019 - 2021

SKILLS

- Amazon EC2, S3, VPC, RDS,
- AWS Lambda
- AWS CloudFormation
- AWS CodeDeploy
- AWS ECS / EKS
- AWS CloudWatch
- AI DevOps
- AIOps
- Automation intelligence
- Linux (Ubuntu)
- Node.js
- GitHub
- Docker
- Jenkins
- Terraform
- Kubernetes
- Ansible
- CI/CD pipelines
- Shell&Bash
- Prometheus.io
- Grafana

PROFESSIONAL SUMMARY

DevOps Engineer with hands-on experience in AWS, Docker, Kubernetes, Jenkins, and Terraform. Skilled in building CI/CD pipelines, containerizing applications, and deploying scalable cloud-native solutions on AWS (EKS). Strong understanding of automation, infrastructure as code, and monitoring tools. Passionate about optimizing deployment workflows and improving system reliability.

Key Projects

- React.js E-commerce Application**
 - CI/CD Pipeline for React App on CI/CD focus
 - Built automated CI/CD pipeline using Jenkins & GitHub Webhooks
 - Integrated Docker & DockerHub for image management
 - Reduced deployment time by 40%
- TrendStore**
 - DevOps Project - Monitoring / Infra focus
 - Containerized React application using Docker and deployed on AWS EKS
 - Provisioned infrastructure using Terraform (IaC)
 - Implemented CI/CD pipeline using Jenkins, GitHub Webhooks, and DockerHub
 - Automated build and deployment process, improving release efficiency
 - Monitored applications using AWS CloudWatch

WORK EXPERIENCE

Aws DevOps Engineer
Inspace Technologies Pvt Ltd 1 Year
Supported day-to-day DevOps operations, working across deployments, monitoring, and infrastructure upkeep for production applications.

- Assisted in provisioning and maintaining AWS infrastructure (EC2, S3, VPC) for internal and client applications
- Built and maintained CI/CD pipelines using Jenkins and GitHub webhooks for automated builds and deployments
- Containerized applications with Docker and supported basic orchestration on Kubernetes
- Monitored application health and uptime using CloudWatch and Grafana, and triaged routine incidents
- Performed Linux server administration, patching, and basic troubleshooting
- Documented deployment procedures and runbooks to standardize repeatable tasks

CERTIFICATE

- GUVI AWS DevOps Program (2026)
- AWS Solution Architect Associate (In Progress)
